## KENT S. BUTLER MEMORIAL GROUNDWATER STEWARDSHIP SCHOLARSHIP

### APPLICATION FORM

Application Deadline: March 25, 2020

Scholarship Amount: \$2,500

Each year, the Barton Springs/Edwards Aquifer Conservation District (BSEACD), in collaboration with our permittees, offers a college scholarship dedicated as a memorial scholarship honoring one of Austin's most influential environmental planners, Kent Butler. Dr. Butler specialized in bringing science and policy together. He encouraged open conversation, collaboration, and participation from all perspectives.

The Kent S. Butler Groundwater Stewardship Scholarship Essay Contest increases the awareness of groundwater issues by rewarding high school students for high quality research and writing. The \$2,500 scholarship can be applied toward tuition for any college, community college, or training institution.

A panel of independent judges reviews all essays and score them based on content, accuracy of information, originality, grammar, quality of research, and style. The judges represent a cross-section of skills and expertise.

Essays must generally discuss groundwater issues, which may include but are not limited to:

- Non-point source pollution
- Pollution prevention
- Water conservation
- Hydrogeology

While essays must focus on groundwater issues, applicants do not have to be planning a career path in a water-related field.

The essay contest is open to high school juniors, seniors, and immediate graduates. Students must reside in one of the eight school districts overlapping the District boundary. These school districts are: Austin, Del Valle, Dripping Springs, Eanes, Hays Consolidated, Lockhart, San Marcos Consolidated, and Wimberley.

*BSEACD is a groundwater conservation district charged by the Texas Legislature to preserve, conserve, and protect the aquifers and groundwater resources within its jurisdiction, which includes parts of three Central Texas counties. It is governed by a Board of five elected directors and staffed with hydrogeologists, groundwater regulatory compliance specialists, environmental educators, geospatial systems specialists, and administrative support personnel.*
