Section IV. Well Information		

APPLICATION CHECKLIST

The following items must be completed and submitted with your application form.

Item 1. Written Descriptive Statements

The applicant must provide a written detailed statement that addresses all of the following components. Please address all of the components below in one "type-written" statement in a word document format. The submitted word document should be signed and dated.

a) Permit Type

• State the type of permit that you are applying for (i.e. Conditional Edwards-Class A,B,C,D; Historic Trinity; Saline Edwards)

b) Nature, Purpose & Location

- Describe the nature and purpose of the various proposed uses including proposed uses by persons other than the well owner.
- Describe the well location and the proposed receiving area from groundwater produced from the well
- Describe Proposed Transfers or Transports Location and purpose of any water to be resold, leased, transferred or transported.

c) Pumpage Volume

- State the requested permit pumpage volume and provide a description of how the requested pumpage volume was determined. The applicant shall provide pumpage volume calculations based on the type of use, anticipated pumping capabilities, pumping times, pumping frequency, and other pertinent data to substantiate approximate groundwater production. The requested pumpage volume should demonstrate reasonable nonspeculative demand.
- Describe the anticipated pumping rate at which water will be withdrawn from each well.

d) Demand Trends

- Describe any anticipated future demand trends, long-term system growth, and associated pumpage needs related to those trends.
- List a breakdown of the projected annual volume by types of use (PWS, commercial, irrigation, industrial, etc.).
- Provide a projected quarterly timeline detailing the anticipated pumpage volumes for the first three to five years of pumping.
- For public water suppliers, provide an estimated or calculated per capita and/or household consumption.

e) Conservation Practices

- Describe any conservation measures or practices that are anticipated or are currently in place.
- f) Demonstration of Backup Supply (Only for Class B or Class C Edwards Production Permits)
 - Explanation of capability and commitment to use an alternate/backup supply in event of drought declaration
 - For PWSs provide explanation that describes how the infrastructure, agreements, rates, and tariffs will be in place during 1st yr of permit

Item 2. Related Permits and Authorizations

Provide a copy of any notices of application made to the TCEQ to obtain or modify a CCN in order to provide water or wastewater service with water obtained pursuant to the requested production permit. Also, provide notice of any pending, denied, or remanded authorization from a local, state, or federal agency relating to water or wastewater.

Item 3. Transfers Documentation

If the groundwater is to be resold, leased, or otherwise transferred to others, provide the location to which the groundwater will be delivered, the purpose for which the groundwater will be used, and a copy of the legal documents establishing the right for the groundwater to be sold, leased, or otherwise transferred, including but not limited to any contract for sale, lease, or transfer of groundwater.

Item 4. User Conservation Plan and User Drought Contingency Plans

District staff can provide you templates for a User Conservation Plan (UCP) and a User Drought Contingency Plan (UDCP). Both will need to be completed, signed, and submitted to the District.

Item 5. Well Construction Design Schematic

You will need to submit a proposed well design schematic. The hydrogeologist/driller can work closely with the District and should provide a well design schematic with specifications to include: the total depth, borehole diameter, casing diameter and depth, annular seal interval(s), annular sealing method, calculated grout volumes, surface completion specifications, and any other pertinent well construction information.

Item 6. Well Development Plan

A well development plan that describes the process for handling cuttings and fluids during the well development.

Item 7. Public Notice Contact List/Map

Public notice is required for all nonexempt wells in which a drilling or production application is filed. District staff can provide guidance in collecting this information.

☐ Tax plat location map showing:

- o location of the proposed well/existing well to be modified.
- o mapped wells within a half ½ mile radius of the proposed well/existing well in reference.
- o all properties/landowners located within ½ mile radius of the proposed well/existing well in reference.
- o mapped CCNs or PWS Service areas within ½ mile radius of the proposed well/existing well in reference.

☐ Mailing List: Registered Well Owners

o Name/Mailing address/Physical addresses of all the registered well owners within ½ mile radius that will receive notice.

*It is only necessary to provide notice to property owners with wells (registered well owners should be notified regardless if they are served or not served by a retail water provider). It is not necessary to provide notice to property owners without wells and that are served by a retail water provider.

☐ Mailing List: Public Water Suppliers

o Name/Mailing address/Physical addresses of all the Public Water Suppliers within ½ mile radius that will receive notice.

Item 8. Additional information requested by District General Manager

The applicant may be asked to submit other facts, information and considerations deemed necessary by the General Manager for protection of the public health and welfare, and conservation and management of natural resources in the District. If it is determined that additional information is needed, District staff will provide guidance in fulfilling this component of the application.
